

Bachelor of Business Administration - Management Major

SCHOOL OF BUSINESS

Overview

With the Bachelor of Business Administration Management major, you'll learn key business and entrepreneurial concepts and develop skills for success in today's business environment.

In this program, you'll:

- learn to achieve project goals effectively in diverse and dynamic team environments and develop fundamental project management skills and knowledge
- develop personal skills and professional behaviours vital for effective management practices and understand and apply financial and accounting principles in real-world business situations
- use mathematical formulas and statistical calculations to support various business functions and apply economic theories to make informed decisions in a business and finance context
- learn the key principles of the Canadian legal system and understand the basic laws that govern business ownership and transactions
- harness the power of information and communication technology to streamline business practices and apply marketing theory and processes to promote and grow businesses
- use knowledge in organizational behaviour and human resource management to improve business performance and develop the skills needed to be a responsible leader in complex and dynamic business settings
- understand the role of operations management in the business environment to make businesses more cost-effective
- master the essential skills and knowledge required in business and develop a strategic mindset that will help you improve business performance on a global scale.

Completing the Management major will prepare you to excel in business management. You will grasp essential business concepts and can thrive in diverse business environments.

Minors

Opportunities for additional specialization are available through the following optional minors.

Construction Project Management: A pathway to business roles in Canada's booming construction sector, focusing on managing significant capital projects, addressing design, risk, and conflict management.

Energy, Oil and Gas: A curriculum designed to prepare you for Alberta's energetic and changing energy landscape, with courses on technical, regulatory, and economic aspects from the renowned MacPhail School of Energy.

Traits, skills and aptitudes

Those in the management field tend to be innovative, directive, and social.

You need:

- intellectual and emotional maturity
- control over your emotions and behaviour
- independence and objectivity
- energy, confidence, and creativity
- tact
- good listening and communication skills
- problem-solving skills
- project-management skills
- the ability to learn quickly and easily, then share knowledge, teach, and train people
- the ability to observe, gather, select, and evaluate facts
- the ability to work effectively as part of a team

- perceptiveness, to recognize an organization's dynamics and politics
- persuasiveness and the ability to motivate others
- integrity.

You should enjoy conducting research, taking charge, and providing constructive advice to others.

Academic path

Those who have previously completed the SAIT Accounting, Business and Entrepreneurship, Community Economic Development, Management and Leadership, or Marketing certificates can receive course credit for classes. The number of applicable credits will vary by certificate.

Graduates of the SAIT Business Administration diploma - Management major may be eligible to enter this program in year three and earn their degree with a further two years of study.

Professional designations and certifications

With the Management major, you can pursue the Certified in Management (CIM) designation.

You will also be better prepared to pursue your Project Management Professional (PMP) certification following graduation.

Credentials

Upon successful completion of this program, you'll receive a SAIT Bachelor of Business Administration degree with a major in Management.

Practicum, Co-op and Work Integrated Learning

During your fourth year (with at least 90 credits complete), you'll participate in a practicum or capstone project as part of the program.

If you choose a practicum, you'll reflect, research, analyze, evaluate and recommend solutions to real-world business problems with an existing business, showcasing your skills to prospective employers. You'll be responsible for finding employment for this practicum, which must be approved the Academic Chair.

If you choose a capstone project, you'll work individually or as part of a project team on a series of activities and simulations drawn from multiple disciplines to create a strategic and operating business start-up plan.

Admission requirements

Applicants educated in Canada

Applicants must demonstrate [English language proficiency](#) and meet one of the following requirement options or equivalent.

Admission is determined based on an applicant's academic history, including high school and post-secondary courses. Post-secondary level courses with similar learning outcomes may be considered to meet admission requirements.

SAIT accepts [high school course equivalents](#) for admission for applicants educated outside Alberta.
