

Bachelor of Business Administration - Supply Chain Management Major

SCHOOL OF BUSINESS

Overview

Are you interested in becoming a supply chain professional? Supply chain management offers a dynamic and challenging environment where you can have a global impact, work on diverse tasks, and continually adapt to new technologies and trends.

Our Supply Chain Management major, part of the Bachelor of Administration program, will teach you the skills you need to succeed in this field. You'll learn from real-world examples that give industry insights. If you're into procurement, logistics and inventory management, this major might be a great choice.

You'll learn how to:

- blend supply chain theory and practice to support essential functions and drive organizational strategy
- follow ethical practices, industry standards, and regulations to enhance supply chain activities
- analyze data to create the intelligence needed for crucial decision-making in supply chain operations
- differentiate between various technology systems and processes to improve business performance and address costs across the supply chain
- demonstrate professional accountability, leadership skills, and adaptability in the world of supply chain management
- apply project management theories and tools to support supply chain management projects.

Completing the supply chain management courses in this program will prepare you to tackle supply chain management challenges, making you an asset in the business world and to government and non-governmental organizations.

Minors

Opportunities for additional specialization are available through the following optional minors.

Construction Project Management: A pathway to business roles in Canada's booming construction sector, focusing on managing significant capital projects, addressing design, risk, and conflict management.

Energy, Oil and Gas: A curriculum designed to prepare you for Alberta's energetic and changing energy landscape, with courses on technical, regulatory, and economic aspects from the renowned MacPhail School of Energy.

Traits, skills and aptitudes

Those working in supply chain management tend to be methodical, directive and innovative.

You need:

- an aptitude for numbers and data analysis
- strong decision-making skills
- strong communication skills
- adaptability
- attention to detail
- quick decision-making skills.

You should enjoy managing complex projects and budgets and navigating ever-changing environments.

Academic path

Those who have previously completed the SAIT Accounting, Business and Entrepreneurship, Community Economic Development, Management and Leadership, or Marketing certificates can receive course credit for classes. The number of applicable credits will vary by certificate.

Graduates of the SAIT Business Administration diploma - Supply Chain Management major may be eligible to enter this program in year three and earn their degree with a further two years of study.

Professional designations and certifications

With this major, you can pursue several designations, including:

- Supply Chain Management Professional (SCMP)
- Professional Logistician (P. Log)
- Certified Supply Chain Professional (CSCP).

Credentials

Upon successful completion of this program, you'll receive a SAIT Bachelor of Business Administration degree with a major in Supply Chain Management.

Practicum, Co-op and Work Integrated Learning

During your fourth year (with at least 90 credits complete), you'll participate in a practicum or capstone project as part of the program.

If you choose a practicum, you'll work with an existing business to reflect, research, analyze, evaluate and recommend solutions to real-world problems, showcasing your skills to prospective employers. You'll be responsible for finding employment for this practicum, which must be approved by the Academic Chair.

If you choose a capstone project, you'll work individually or as part of a project team on a series of activities and simulations drawn from multiple disciplines to create a strategic and operating business start-up plan.

Admission requirements

Applicants educated in Canada

Applicants must demonstrate [English language proficiency](#) and meet the requirements in one of the following options or equivalent.

Admission is determined based on an applicant's academic history, including high school and post-secondary courses. Post-secondary level courses with similar learning outcomes may be considered to meet admission requirements.
